Connectors of Sequence

Connectors of sequence show the order in which events happened. The most widely used are: first, then, next, after that, finally, first of all, by the time, eventually, at last, at the end, before, after and later.

First of all, we couldn't have a shower because there was no hot water.

By the time, we were ready, it was too late to eat.

Eventually, we took the train to town.

At last, we got to the park but it was very late.

At the end, we only had time for a quick game.

First I wake up Then I eat breakfast After that I brush my teeth Next, I prepare my books Finally, I go to school.
