

Colegio Tecnológico Pulmahue  
Miss. Yorka Sepúlveda

**Quinto Básico**

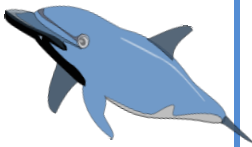

Estimados padres y apoderados el objetivo de esta guía de trabajo es que el alumno reconozca e identifique nombres de animales marinos, también que logre identificar datos e información sobre las ballenas en texto escrito.

Para dudas y consultas enviar correo a [Yorka.sepulveda.pulmahue@gmail.com](mailto:Yorka.sepulveda.pulmahue@gmail.com) de 9 a 7pm, en caso de necesitar material extra para el vocabulario también mandar correo. Plazo de entrega: viernes 15 de agosto hasta las 2pm

**O.A: Reconocer nombres de animales marinos**

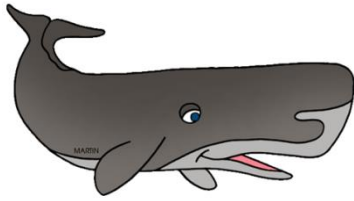

**O.A2: Identificar información general y específica en textos.**

**UNSCRAMBLE THE NAMES OF THE ANIMALS AND FIND THEM IN THE WORDSEARCH. ORDENA LOS NOMBRES DE LOS ANIMALES Y LUEGO BUSCALOS EN LA SOPA DE LETRAS.**

**READING COMPREHENSION: IMPORTANT FACTS ABOUT WHALES, READ AND COMPLETE THE CHART.  
LEE Y COMPLETA LA TABLA DE ACUERDO A LA INFORMACIÓN DEL TEXTO.**

Whales live in the ocean, but they are not fish.

They are mammals.

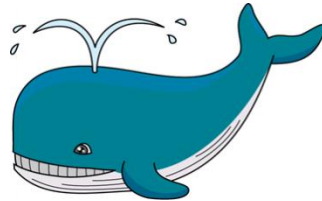

They are warm blooded.

The baby whale grows inside its mother until it is ready to be born.

Whale calves feed on their mother's milk.

Whales breathe air. They have lungs and a blowhole in the top of their heads. They don't spray water, but warm air makes steam as they breathe out.

Blowhole

Some whales can stay under water for up to an hour and a half, but the usual dive is for half an hour.

Whales don't sleep like we do.

So they don't drown in the water they rest only half their brain. The other half reminds them to breathe in air.

They rest near the top of the water.

**Put these facts in the correct column:**

Lay eggs / ~~Don't lay eggs~~

Have scales / Have skin

Breathe air / Breathe water

Have gills / Have lungs

Warm blooded / Cold blooded

No milk for babies / Milk for babies

<b>WHALES</b> 	<b>FISH</b> 
Don't lay eggs	Lay eggs
