GUÍA DE EJERCICIOS DE INGLÉS – 2° MEDIO

HABILIDADES A EVALUAR:

01. Leer y comprender un texto sobre la tecnología de la información.
02. Responder preguntas de selección múltiple, verdadero y falso.
03.Desarrollar una sopa de letras sobre la tecnología.

INSTRUCCIONES:

 Lea atentamente el texto, instrucciones y las palabras claves para la comprensión lectora.

Key words

Store: almacenar o guardar información- retrieve: recuperar- Enterprise: iniciativa- evolved: desarrollado- worthwhile: útil- networks: redes- encompasses: abarcar- such as: tales como- several: varios/as- development: desarrollo (noun)- e-commerce: comercio electrónico- lead: liderar- nowadays: hoy en día- disembodied: incorporado- cloud: nube- allowed: permitido- alike: del mismo modo-needs: necesidades.

I) Read the text and answer the following questions
Lea el siguiente texto y responda las siguientes preguntas

Information Technology

Information Technology (**IT**) is the application of computers and Internet to store, retrieve, transmit, and manipulate information, often in the context of a business or other enterprise. **IT** is considered a subset of information and communications technology (ICT) and has evolved according to the needs.

It is worthwhile noting that the term **IT** is commonly used as a synonym for computers and computer networks, but it also encompasses other information distribution technologies such as television and telephones. Several industries are associated with information technology, including computer hardware, software, electronics, semiconductors, internet, telecom equipment, engineering, healthcare, e-commerce, and computer services.

Thanks to the continuous development of computers, the original computing systems became minicomputers and later personal computers took the lead. Nowadays, mobile phones are dethroning the personal computer and computing is evolving faster to become disembodied more like a **cloud**, becoming accessible more easily whenever needed. Information technology has transformed people and companies and has allowed digital technology to influence society and economy alike. It has, in this sense, shaped societies and adapted itself to people's needs.

II) Circle the right answer

Encierre en un círculo la alternativa correcta

1. Information technology is useful for

   a. Store information   b. miss information   c. give information

2. According to the text IT

   a. Helps to evolve needs   b. helps to include people c. provides to be useful

3. Information technology is the same as

a. Computer networks   b. Computer screen   c. Internet connection

III) Answer (T) True or (F) False

Responda con (T) si es verdadero o (F) Falso

1_____Several industries are only associated with information technology.

2_____Cloud is part of information technology.

3_____Information technology does not influence society and economy.

IV) Find out the following words related to technology and information in the wordsearch

Encuentre las siguientes palabras relacionadas a tecnología e información en la sopa de letras

E	I	T	M	O	U	S	E	D	S	R	H	F	S
